CSHQA BOISE OFFICE WINS ENR MOUNTAIN STATES AWARD OF MERIT FOR GREEN PROJECTS

CSHQA is pleased to announce that CSHQA's Boise Office has won an Award of Merit for Green Projects. A panel of eight judges selected winning projects from Utah, Idaho, Montana, Colorado, Wyoming, Kansas, Nebraska, North Dakota and South Dakota in the annual ENR Mountain States 2014 Best Project Competition.

CSHQA provided all planning, design and development services to renovate a 19,745 sf 1950's brick and CMU warehouse property into a modern, state-of-the-art space for its Boise office. Services included architectural design, civil, structural, electrical and mechanical/plumbing engineering, telecommunications design, interior space planning and design, and landscape architecture. The project is LEED® registered with the goal of achieving LEED® Platinum. Significant sustainable design elements include: radiant heating and cooling connected to city geothermal system, extensive daylight harvesting, automated lighting and dimming systems, 27 different LED fixture types, sustainable landscaping and on-site storm water management, low-use water fixtures, and an energy efficient building envelope.
